The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patent granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that one is *now pending*. Gold in Kansas.

Gold—gold—nothing but gold, seemes to be the cry now-a-days. Gold here—gold there—gold pretty much everywhere! Within a few years past, California and Australia have attained an established reputation as the greatest gold producing countries on the globe; and latterly, a great shout has been sent up from the Pacific coast, over certain newly discovered and alleged extraordinary gold deposits in the Fraser River valley, north of Oregon. The first glowing accounts, however, of these last-named diggings, which hurried off thousands of eager adventurers to the new El Dorado, have not been above half confirmed.

The frequent rumors of gold-finding in Vermont Maine and Iowa, have not taken much effect; but, quite recently, a grand flourish of trumpets has been had over certain marvellous discoveries of the yellow dust said to have been made at Pike's Peak and Cherry Creek, near the Platte River, in Western Kansas. The gold region is some 700 miles west of Leavenworth, and is inhabited by wild men—Camanche and Cheyenne Indians—and buffaloes; and rumor boldly avers that some enterprising whites are realising from $7 to $15 a day, in securing the precious metal, several thousand dollars worth of which has been already received at St. Louis. There is great excitement in Kansas on the subject, multitudes pushing off in hot haste for the new gold diggings.

We trust it is not needful that we should caution our readers to keep cool in regard to these Kansas gold mines. Not one in forty, of those who go there, will make his fortune—probably not one in five will make anything.—And then, it is to be remembered that every honest, skilful, and industrious farmer and working-man in Rhode Island *has a gold mine of his own*, the productiveness of which he has generally tested, and is well assured there is no humbug about it. Friend! work in thy own diggings, and let others go off "prospecting," if they go elect, to Kansas and Fraser River, where they have the fun of paying 60 cts. per pound for dog-meat, and $100 a barrel for flour!

☞ We can tell the *Providence Jour-*
[illegible]
wretched plan of Presidential appointment of Postmasters, Collectors, &c. It is for Congress to cut up the whole plaguy system by the roots, allowing the people of every locality to elect their own Postmaster, Collector and other federal officers, and giving such officers to understand that their responsibility is due not to a partizan executive, or to some worthless knave, who is so fortunate as to have secured that functionary's ear, but to that "popular sovereignty" whose express will has designated them for the places they hold.

What harm could result from such a change? What possible interest would be likely to suffer from its inauguration? The President has, or should have, more important business to attend to, than the selection of an army of tide-waiters, and postmasters for fifteen or twenty thousand insignificant places all over the country. The choice of his own cabinet might perhaps be properly left to the President's discretion; but beyond that, we would, if we had the power, strike down the whole Executive patronage at a single blow.

Killing a Whale.—There are more ways of killing a whale than harpooning him. Our old friend, Dr. B., of Charleston, told us that he killed a whale, once upon a time, off the Delaware, with a rifle-ball. Dr. Jenkins writes to the Southern Christian Advocate, from Shanghai, April 2: "A remarkable occurance took place when H. M.'s screw steamer gun-vessel Nimrod was proceeding, under steam, for the entrance of the river Min. When about four miles outside Sharp Peak, a violent concussion was experienced by all on board, as if the ship had struck the ground, but knowing from the position that such could not be the case, the real cause was evidently found on looking astern, on their discovering a large whale severed nearly in two, blowing convulsively and bleeding so profusely as to redden the water all around. The whale had, doubtless, been struck with much violence by the screw-propeller; and, indeed, the engines were brought to a momentary stand still by the shock."—*New London Chronicle.*

The Suffolk Bank Question.

October 5, 1853.

To the Editors of The Atlas and Daily Bee:

The *Post*, in a labored article to-day, attempts to befog the Suffolk question, though it hardly comes up to the point of justifying the recent hostile attitude of the Suffolk towards the country banks. In fact, it says "we have nothing to say of the *policy* it has recently pursued," though it endeavors to *excuse* the extraordinary course of the Suffolk by a general jumbling of convenient assertions, unsupported by facts or logic, concluding with the very satisfactory (to itself, no doubt,) and intensely sedative (to one who has a disagreeable and indefensible subject to dispose of) announcement, that "it is a mere question of dollars and cents," in which "the public have no interest," therefore "let the banks *fight it out.*" Now, *we* think the public *have* an interest in the matter, and that the contest involves not only dollars and cents, but a great principle of equal rights, which affects all classes as well as individuals. And the question at issue is so simple, and devoid of all complication with other questions, as not to admit of "two sides." Either the Suffolk Bank is clearly in the wrong, or its course is *entirely defensible.* A question of right or wrong is not to be settled by a vote of the "Boston banks," nor even by "a *majority* of the country banks." If a bank chooses to redeem its bills at any other bank than the Suffolk, it certainly has the *right* so to do; and even the *Post* admits "there can be no legal or reasonable objection" to its doing so. But, says the *Post*, "it is neither law nor equity to *compel* (!) the Suffolk to redeem for banks that do not choose to *pay for the service.*"

This is the assumption upon which the Suffolk originally attempted to defend its unjustifiable course, and which has been adopted by every one who has made an effort to bolster up its late proceedings. Now, instead of the country banks "*compelling*" the Suffolk to redeem their bills, those banks which have withdrawn their accounts *do not even ask* the Suffolk to redeem their bills. In fact they *prefer* that the Suffolk would *not* redeem their bills at all. And the public would suffer no detriment or inconvenience by these bills being *thrown out* at the Suffolk, since they are redeemed in specie at an equally convenient place in Boston. I suppose that even the *Post* will not contend that it makes any difference *to the public*, which *side* of State street the bills of country banks are redeemed, inasmuch as the redemption in both places are in all respects alike.

But the position of the country banks is this—and it involves the whole issue—in fact it is the *only* question about which there is any controversy: the withdrawing banks contend that so long as the Suffolk *persists* in redeeming, or continues to receive their bills, it should receive as usual *in Boston* specie or specie funds at its option, in payment for the same; instead of subjecting the several banks to the trouble and expense of carrying the specie from Boston into the country, to meet these bills, which the Suffolk at equal trouble and expense must transport back to Boston again.

In a word—the country banks insist on their privilege to redeem their bills, collected by the Suffolk, in Boston, where it is most convenient both for them *and the Suffolk* to have them redeemed. But the Suffolk insists *for the sole purpose of annoying and embarrassing the withdrawing* banks, and *subjecting them to trouble and needless expense*, on compelling these banks to redeem their bills at their own counters where it is a disadvantage for them to do so, and *of no possible advantage to the Suffolk.* There can be no other motive on the part of the Suffolk, than the one specified, unless it be to *compel* the banks to do what they do not deem for their own interest or the public advantage, to wit: to pay tribute to the Suffolk Bank, for a service which they do *not desire it to perform.* This is the gist of the whole controversy. And the *Post* can expatiate on the "derangement of the currency" or rhapsodise in ecstacy over the "Suffolk system" at its pleasure, but there is *no other question or issue* involved in the controversy than the one above named. If the Suffolk is not willing to redeem the bills of other banks redeeming them, after the banks refuse to compensate it or comply with its requirements, and also subject itself to the *additional trouble* and expense of sending the bills hundreds of miles for specie when it *could have the specie at its own counter!*

There can be but one answer to this interrogatory—for public convenience cannot be offered as a motive, seeing provision is made for the redemption of these bills in Boston, as before stated. Are the managers of the Suffolk so short-sighted as to suppose they can *bully* the country banks into a submission to what they consider a wrong and injustice?—If they are, they have less penetration in discerning a yankee's *grit* in resisting oppression, than falls to the lot of bank officers generally. If any individual were to pursue a similar course as the Suffolk Bank, in picking up the bills of banks *for the purpose* of annoying and embarrassing them by withdrawing their specie, he would be an object of indignation and scorn to every respectable business man, and would be booted out of the house of any bank officer in Boston, if he should have the audacity to present himself at a place where his presence would surely be considered offensive.

If the Suffolk Bank supposes it can continue with impunity in a course, which would be universally condemned in an individual, the legislature will unquestionably dispel the delusion at an early day, notwithstanding the feverish anxiety of the *Post* to prevent the foreshadowed event.

Hampden.

A Musical Contest.—A novel feature of the Hillsborough County Fair, held at Milford, N. H., on Thursday, was a contest for premiums by seven brass bands. The committee was made up, with one exception, of editors, who made the following awards: First premium, $30 to Manchester Cornet Band; second, $25 to Nashua Band; the Hudson Brass Band, and Peterborough Cornet Band, were awarded equal premiums of $5; the Goffstown Brass Band the last prize of $5. The bands played one after the other from the stand, and their performances were highly relished by a large crowd.

How Do Thieves Live?—It is a curious subject of inquiry, how thieves live. The lowest estimate that has been made by our police authorities sets them down as numbering twelve thousand; yet, by the report of the Metropolitan Police Commissioners, the net loss by respectable citizens, from their depredations last year, was exactly $16,250, which would give for each thief one dollar and twenty-five cents a year. Either the estimated number of thieves is a great exaggeration, or a large amount of thieving is done which does not appear on the police records.—*N. Y. Sun.*

The Scotch Iron for the Washington Aqueduct.—It is said that the profit on the iron pipes that were contracted for in Scotland by the government, to the exclusion of our own manufacturers, will be $80,000. At the same time the city of Boston has contracted with Pennsylvania parties for 6000 tons of similar iron. This is abundant evidence that it can be purchased at home, on as favorable terms as abroad.—*Prov. Journal*

At Limerick, Ireland, a young man who came of age two years ago, has been obliged to leave the country in consequence of his embarrassments. He began with £50,000 in the bank, which he has got rid of, and accumulated debts since to the amount of £400,000 (two million dollars)—all in two years!

BRIAN O'MORRA.

Air—"*Margaret Roche.*"

I'll sit where my brave love
Lies breathless and gory,
And this lone tower shall echo
My dark wailing story—
Sadly and madly
My breast pierced with sorrow,
I'll mourn for my true-love,
Brave Brian O'Morra.

Oh! but for the future
Looms ghastly and sorely;
O! that dark battle
Has cost me too dearly,
When it gave to my dear love
A grave deep and narrow,
In his youth and his glory,
My Brian O'Morra!

With drums and with banners
And arms for the slaughter,
They fell on the Saxon
By Funcheon's red water,[*]
And mowed down his thick ranks
Like weeds of the corrah,[†]
And the foremost in danger
Was Brian O'Morra!

When fled the fierce Saxon
That field of disaster,
Than the wolf on his track
My young Brian was faster
'Till he got by Kilcoleman,
This red gash of sorrow,
That made me a mourner
For Brian O'Morra!

His dark eyes gleamed ever
With soft love or valour,
Ah! ne'er knew his bronzed cheek
Fear's white craven pallor—
But now, like the white stone
Of Bregog's wild furrow,
Are the cheek and the brow
Of my Brian O'Morra!

Kilcoleman,[**] thy towers
Show the grim gloomy token
Of the red fire of battle,
So shattered and broken—
So rifted, so broken,
My heart ne'er can borrow
One joy when I think
On my Brian O'Morra!

I'll make him a deep grave
In yon lonely hollow,
Where the ruins rise hoary
O'er wild glancing Mulla;
And soon low beside him
I'll sleep in my sorrow
In the grave of my true love,
My Brian O'Morra!

[*] At the Ford of Mianalig, below Glanworth, where the English, under Sir Charles Vavasor, were cut to pieces by the Irish army, commanded by Lord Castlehaven, in the year 1643. The remains of the English army divided, one party retreating to Youghal and the other towards Cork. According to tradition many episodes like that told in the ballad occurred in the pursuit.

[**] Kilcoleman Castle, the ancient residence of Spenser, near Doneraile, in the county Cork. So much has been written about this old stronghold, that it is necessary to make only a few remarks about it here. The outworks are now almost level with the ground, but the castle itself is at present undergoing a most complete and thorough repair by the owner, John Harold Barry, Esq., of Ballyvonere House, a gentleman who is only equalled in his liberality as a landlord by his rare taste and discernment in everything pertaining to the history and antiquities of his native country. Would that other landlords of the neighborhood would follow Mr. Barry's example, and build up the breaches of the old war-worn fortresses that frown down still so proudly from almost every height in this beautiful and picturesque locality.

Visiting his Old Quarters.—The Albany *Times* says that the other day a spruce, gentlemanly-looking young man called at the Penitentiary, and presenting his engraved card, politely requested to be favored with an inspection of the institution, of whose fame he had heard so much.

One of the keepers volunteered to "put him though," and while doing so, was struck with the impression that he had seen the same face before, and that it was fastened at one of the inmates of the institution, who had occupied Cell No. —, who had been one of the wildest, most incorrigible, and at the same time one of the smartest of the prisoners. The keeper become fully convinced of the indentity, and finally when they reached Cell No. —, he keenly eyed the visitor as he asked, "do you remember this cell?" The party interrogated was taken all aback, but after a few moments confusion, frankly owned up to its former occupancy, and reported himself as an entirely changed man, and now the Rev. Mr. ——, of a neighboring State, and his credidentials attested his being such.

A correspondent of the *National Intel.* proposes a method of suddenly stopping a train of cars on a railroad, in order to prevent accidents. His plan is to have an apparatus placed in front of the driving wheels and over the track, with a communicating string leading to the engineer's stand; almost immediately a constant stream of oil could be poured on the rails, and the forward motion of the train would entirely cease, when, or soon after, the last car of the train, reached the oiled portion of the rails.

The Providence *Journal* remarks as follows:—All injunction is the great remedy for every evil in New York; it is a sort of habeas corpus, and everybody, it would seem, has a right to it, against everybody else. We do not suppose that a man could legally kiss his wife in New York, if his neighbor should apply for an injunction upon him.

The mortality among shipmasters, this season, is said to exceed anything of the kind ever known. Large numbers have died in the Southern ports from yellow fever. More than 20 have died in Cuba this season, from the State of Maine alone.

Efforts have lately been made by the Patent Office, through Mr. Meade, our minister to Brazil, to obtain tea seed from that country, where it has been successfully cultivated for 30 years.

The Worcester Spy Purchased.—Samuel S. Foss, Esq., the editor and proprietor of the Woonsocket Patriot, yesterday completed negotiations for the purchase of the Worcester Daily Spy. He will assume its management about November 1st, at which time it will appear in a new and handsome type. We congratulate the very large list of patrons of the Spy upon the establishment falling into so good hands. Mr. Foss is an experienced editor, possesses tact, talent and enterprise, no less than capital—so essential to the business—and he will not fail to make the Spy worthy of the city of Worcester and the many friends of the paper. We understand that Mr. Foss will retain a proprietary interest in the Patriot, one of the most popular and widely circulated weeklies in Rhode Island.—*Boston Bee.*

Improved Fire and Water Proof

Felt and Composition Roofs.

THE subscribers would respectfully call the attention of persons building, or about to build, to the above composition, which they have used to the entire satisfaction of many persons in this community who have lately put roofs upon old, as well as new buildings of every description. These roofs have been pronounced by Architects, Builders, and others who have a knowledge of their merits, to be of greater durability, and to be possessed of fire and resisting properties to an extent beyond that of any roof now in use. ☞ The materials of which these roofs are composed are not affected by temperature. ☞ They will not expand or contract with heat and cold, like roofs of iron or tin. ☞ The cost is much less than any other fire proof roof in use. ☞ They are not effected by the jar of machinery. ☞ In case of injury, no roof is so easily and cheaply repaired. ☞ We not only state these facts, but can substantiate them, by referring to those who have patronized us for the last two years, and would request all those who are about to put on new roofs, either to new or old houses, to call upon us before looking elsewhere, when we think they will be satisfied that we can furnish them with the best roof now in use. GLADDING & SIMMONS,

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD,
Compounded Entirely from Gums,

IS One of the best Purgative and Liver Medicines now before the public, that acts as a Cathartic, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

THE Restorative of Prof. O. J. WOOD for restoring hair perfectly and permanently has never yet had a rival. Volume after volume might be given from all parts of the world and from the most intelligent to prove that "it is a perfect Restorative;" but read the circular and you cannot doubt; read also the following:—

☞ THE HAIR.—People have for centuries been afflicted with bald heads, and the only remedy, heretofore known, has been those abominable wigs. By a recent discovery of Professor Wood these articles are being fast dispensed with, but a great many persons still patronize them, because they have been so often imposed upon by Hair Tonics of different kinds. To all such persons we earnestly make the request, that they will try once again, for in Wood's Restorative there is no such thing as fail. We know of a lady who was bald, who used the article a short time, and her head is now covered completely with the tiniest and most beautiful curls imaginable. We know of numerous cases where hair was rapidly falling out, which it restored in greater perfection than it ever had been before.

It is also without doubt one of the best articles for keeping the hair in good condition, making it soft and glossy, removing dandruff and has proved itself the greatest enemy to all the ills that hair is heir to.

It is the duty of every one to improve their personal appearance, though some may differ in regard to the ways of doing it; but every one will admit that a beautiful head of hair either in man or woman, is an object much to be desired, and there are no means that should be left untried to obtain such a consideration.—[Woman's Advocate, Philadelphia.

Cochocton, Ohio, Nov. 17, 1856.

O. J. WOOD & CO.—Gents: As I have been engaged in selling your Hair Restorative the last season for one of your local agents (R. M. Hackinson,) and having experienced the beneficial effects of it myself, I would like to obtain an agency for the State of Ohio or some State in the West, should you wish to make such an arrangement, as I am convinced there is nothing equal to it in the United States, for restoring the hair. I have been engaged in the Drug business for several years, and have sold various preparations for the hair, but have found nothing that restores the secretive organs or invigorates the scalp as well as yours. Being fully convinced that your restorative is what you represent it to be, I would like to engage in the sale of it, for I am satisfied it must sell.

Yours truly,
S. T. STOCKMAN.

Wayland, Mass., Feb. 6, 1857.

PROF. O. J. WOOD & CO.—Gents: Having realized the good effects of your Hair Restorative, I wish to state, that finding my hair growing thin, as well as gray, I was induced from what I read and heard, to try the article prepared by you, to promote its growth and change its color as it was in youth, both of which it has effected completely. [illegible] operation I have used nearly three bottles.

HAMMONTON LANDS.
NEW ENGLAND SETTLEMENT.

RARE OPPORTUNITY.—TO ALL WANTING FARMS—in a healthy place, *twenty-five miles* from Philadelphia, on the Camden and Atlantic railroad, New Jersey. An old estate has recently been opened for sale, and the first division of 10,000 acres divided up into farms of twenty acres and upwards. The soil is of *the best* quality for the production of fruits, grains, &c. The price is $15 to $20 per acre, payable in easy quarter yearly instalments, within a term of four years, with interest. The terms are made easy, in order to insure the rapid improvement of the land, by enabling *every industrious man to buy a farm.* It is now being extensively improved by good roads, and some of the best citizens from New England and the Middle States are erecting large improvements. It is a scene of the greatest improvement out of Philadelphia. Seventy five houses have been built in four months. Practical farmers and business men from the length and breadth of the Union are settling there. It is an important business place, on account of its being in the midst of a great market. Every article raised upon this land finds an immediate sale. The water is excellent, and no such thing as fever is known.

The soil is a sandy or clay loam, with a *clay bottom* and *retentive* of manures. It is free of stones and easily worked. It abounds largely in the phosphates, and such is its fertility that from the crops produced both upon this land and the large area adjoining under cultivation, it will be found not to be excelled anywhere in the production of crops most adapted to its market.

The reader may be well aware that the earliest and the best fruits and vegetables come from New Jersey, which are annually exported to the amount of millions of dollars. The land, besides being accessible in every way for fertilizers, has an abundant supply of the best quality of muck manure.

Lumber and building materials can be had on the spot at a cheap price, from the mills. Other mills are now being opened, and brickyards being started on the ground. A person can put up a frame tenement for present convenience for one hundred dollars. On account of the extensive emigration, this is the best course to pursue in order to get a place to live in at the first. Carpenters and builders are on hand to put up houses on the best terms.

In settling here the emigrant has many advantages. He is within a few hours' ride of the great cities in the Middle States and New England; he is near his old friends and associations; he is in a settled country, where every improvement and comfort of civilization is at hand; he is in a healthy place, and is not subject to the certainty of losing the greater part of his family and his own health by those malignant fevers which make the graves of so many millions of the young and hardy in far off regions away from home and friends. Besides, he has a mild climate and an open winter.

There are three trains daily to Philadelphia, and to all those who improve the railroad company gives a free ticket.

The reader will be at once struck with the [illegible] why the property has not been taken up before. The reason is, it was never thrown in the market; and unless these statements were correct no one would be invited to examine the land before purchasing. This all are expected to do. They will see the land under cultivation; they will meet persons, no doubt, from their own neighborhood; they will witness the improvements, and can judge of the character of the population. Persons should come prepared to purchase, as many are locating, and locations are not held on refusal.

The Hammonton Farmer, a monthly Literary and Agricultural sheet, containing full information of Hammonton, will be sent to each inquirer, and can be obtained at 25 cts per annum.

Title indisputable. Warrantee deeds given, clear of all incumbrance, when purchase money is paid. Route to the land: Leave Vine street wharf, Philadelphia, for Hammonton by railroad at 7 1-2, A. M., and 5 1-2, P. M.; when there inquire for Mr. Byrnes. Boarding conveniences will be found. Letters and applications can be addressed to S. B. COUGHLIN, 202 South FIFTH Street, below Walnut, Philadelphia. Maps and information cheerfully furnished. a26

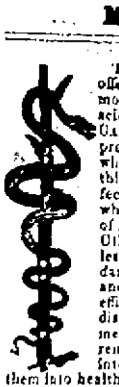
Medicines.



The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known.—Other preparations do more or less good: but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him.

Have you the less serious symptoms of these distempers, they are the easier cured, Jaundice, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these PILLS rapidly cure. Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must burrow in the brutes and in the sea. It has been used in hospitals and private practice, and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by—

Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c.

And also, the wonderful cures effected by Swaim's Panacea have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1,50 per bottle, (containing three half pints) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:—

and having the name of JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork, and a new label for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Phila. Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm. Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea," are engraved conspicuously on two turned strips, and a large semi-circular die forms the upper margin. The borders are composed of plain lathe work strips, outside of which is engraved, in small letters, the entry of the copyright.

A CARD TO THE LADIES.

DR. DUPONCO's Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale at 132 Thames street, corner Church-street, and at 12 Washington Square, opposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. Ladies by enclosing $1 to STURGIS & CO., Box 801, Newport Post Office, can have the Pills sent confidentially) by mail to any part of the city or country.

DR. DOW'S
GRAND MEDICAL HOUSE
AND OFFICE,
NO. 7. ENDICOTT-ST., BOSTON. NO. 7.
Established for the permanent cure of all Private Diseases and the Suppression of Quackery.

DR. DOW, so well known for the last fifteen years in this city, where he has confined his practice to the treatment of mercurial, syphilitic and other diseases of a private nature, is consulted above, from nine in the morning till seven in the evening. Patients must call during office hours. Office not open on Sundays.

All chronic and difficult cases, such as have existed for years, are completely and permanently cured in the shortest possible time by the Doctor's improved course of treatment.

MEDICAL ADVICE.—As it is always important to obtain the services of an experienced and skillful physician call on the celebrated Dr. Dow, No. 7, Endicott street.—*Med. and Surg. Jour.*

DR. DOW will say nothing of his qualifications as a Physician and Surgeon, being a graduate of the University of Pennsylvania, Licentiate of the State Medical Society of N. Y., and for more than twelve years a practitioner of this city, during which time he has no doubt cured more of those difficult and chronic cases (such as nothing but practical experience can ensure success) than by other physicians in Boston.

By his late improved course of practice, Gonorrhœa, Gleet, Strictures, and other local affections of the urinary and seminal organs, are cured in a very few days without mercury, regard to diet, or fear of exposure.

SECONDARY SYPHILIS, &c.

Scrofulous affections, ulcers in the throat or neck, nodes and caries of the bones, eruptions on the skin, and every impurity of the blood thoroughly and completely eradicated. Persons afflicted with any private complaints should call as early as possible after contracting the disease, as much time and money may be saved thereby.

TO YOUNG MEN.—You who are troubled with seminal weakness, generally caused by a bad habit in youth, the effects of which are nocturnal emmissions, pain and dizziness in the head, forgetfulness, sometimes a ringing in the ears, weak eyes, &c., terminating in consumption or insanity, if neglected, are speedily and permanently cured by Dr. Dow.

TO MIDDLE-AGED OR EVEN OLD MEN, whose procreative organs have become inactive or weakened by the excesses of any kind, but especially bad habits in youth, Dr. DOW would respectfully say that from the extensive practice which he has had in treating the above complaint for over fourteen years, he is enabled to guarantee a perfect cure in all cases; that is, a restoration of those organs to their natural and healthy state. Hardly a day passes that he is not called upon to cure the above complaints, and he is happy to say that his course of treatment has invariably effected a speedy cure.

Beware of all kinds of Exhilerating Cordials, as they are of no use.

To the unhealthy, the mere mention of the name of the far-famed and justly popular physician, Dr. Dow, that he can at all times be found at home that he is surpassed by none in curing all forms of disease however protracted, ill-treated, or mercurily affected, is a consolation to his patients, and an honor to himself.—*Balt. Amer.*

All afflicted with private complaints, if possible, should consult Dr. Dow, whose medical education is not surpassed by any physician in the country. In his skill, honor and integrity, all may rely with safety, while most all of the medical practitioners are without honesty or responsibility, their pretensions being grounded in ignorance and assumption.—*Republican Argus.*

There are a great many young men whose cases have become very difficult of cure, either from neglect or ill-treatment. We would advise all such to call on Dr. Dow, of Boston, whose practical experience in certain diseases no doubt exceeds that of any other physician in America.—*Journal of Health.*

Dr. Dow consults with physicians, as usual, on difficult chronic diseases. Charges reasonable.

TO FEMALES.

All diseases peculiar to females, such as suppressions, irregularities, &c., speedily and effectually removed. The efficacy of his remedies for the cure of the above affections, has been well tested in his extensive practice for the last fifteen years in this city, and never was known to fail in effecting a cure where the directions were followed a reasonable time.

HOWARD ASSOCIATION.
PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a **Charitable Act** worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their form and to give **Medical Advice Gratis**, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty to **Furnish Medicines Free of Charge.** It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their annual report upon the treatment of sexual diseases, for the year ending July 1st, 1858, expresses the highest satisfaction with the success which has attended the labors of the consulting surgeon in the cure of Spermatorrhœ, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or self abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important but much despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.

Address, for Report or treatment, Dr. **George R. Calhoun**, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors.

SPANISH GOLDEN MIXTURE.
FOR FEMALES.

THIS elegant vegetable compound has long been used by the Spanish ladies, for regulating the derangements of the female system and for improving the general health and beautifying the complexion. ☞ As a Female Medicine it has no equal. It will remove female obstructions when all other remedies have failed, and a few doses taken for one week before the monthly period will prevent all obstructions *from any cause whatever.* This may seem incredible, but try it. If it fail in any case the price will be refunded. Sent to any part of the country. Price $3.00 per bottle.

REV. SYLVANUS COBB, Boston Mass.—"We had rather pay for it than have other preparations for nothing," &c.

MRS. D. TAFT, Cambridge, Mass.—"Have used your Rosemary with great success in keeping my hair black, as age was turning it fast."

MR. DANIEL B. CONNOR, Boston, Mass.—"Eight months ago I was bald—my hair is now long and healthy—I know your Rosemary has forced it to grow," &c.

OSSIAN E. DODGE, Esq., Vocalist, now of Cleveland, Ohio—"It gives a rapid growth and dark glossy texture, and does not soil the hat or pillow in the least; I know of nothing so valuable for the hair."

FRANCIS ADAMS, Esq., Boston, Mass.—"It is the best thing for children's hair—the ladies are delighted with it," &c.

REV. C. W. DENISON, Buffalo, N. Y.—"I find it excellent for the hair."

MRS. L. SWEENY, Boston, Mass.—"It restored my hair to bald head, and from grey to black color," &c.

HON. C. HUNT, Lowell, Mass.—"To remove dandruff, and keep the hair moist and glossy, we have never found anything so good."

M. HOFFMAN, Esq., (Editor of German Weekly,) Boston, Mass., and his wife Eva, say—"It causes hair to grow vigorously—gives beauty and splendor—is better than European articles," &c.

C. H. STOCKING, Esq. (Trinity College,) Hartford, Ct.—"By using it my hair turned from a sandy to a brown color; it was naturally dry, but it is now moist."

A. F. WOOD, Chemist, New Haven, Conn.—"I saw a fair head of very dark hair on a man that six weeks ago was bald. He had used nothing but your Rosemary," &c.

REVERE HOUSE, Boston, July, 1857. "I had no more hair on my head than an infant, seven months ago. It is now thick, healthy, growing rapidly, and of a fine, dark color. I can positively say that J. RUSSELL SPALDING'S Rosemary, obtained at 27 Tremont street, opposite the Museum, has produced this change."—SARAH J. LORD.

TO THE LADIES—The celebrated Dr. Dix particularly requests all ladies who may need a medical or surgical adviser, to call at his rooms, No. 21 Endicott street, Boston, which they will find arranged for their especial accommodation.

Dr. Dix having devoted over 19 years to this particular branch of the treatment of diseases peculiar to females, it is now conceded by all, (both in this country and Europe,) that he excels all the other known practitioners in the safe, speedy and affectional treatment of all female complaints.

Dr. Dix's French Renovating or Female Monthly Pills are to be had genuine only at this office.

These pills are unrivaled in efficacy and superior virtues in regulating all female irregularities. Their action is specific and certain, producing relief in a very short time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practised by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders, who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the old doctor at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country, with directions.

The best of accommodations furnished for the sick, with kind and attentive nurses, if they wish, at a reasonable rate.

This office is strictly private, with special apartments for ladies, and is so arranged that it is impossible for patients to come in contact with each other.

Recollect the number—21 Endicott street.

N. B. All secrets are most strictly confidential.

All letters will be promptly answered. Address Dr. L. Dix, 21 Endicott st., Boston.
jyl 1y d

CONFIDENTIALLY to the afflicted.—Dr. L. DIX still continues his old establishment, 21 Endicott Street, Boston, where he can be consulted on all private complaints. All persons in any way afflicted may rely on a sure and speedy cure being performed.

Dr. Dix has for a number of years paid particular attention to the study and practice of private diseases, and so perfect has he become acquainted with them, that, without boasting, he will warrant an effectual cure in the shortest possible time, no matter how long standing the case may be.

In offering the result of his long study and practical experience to the afflicted, he is governed by humanity only, for so long have they been deceived by miserable quack nostrums, that it is time that some healthy mode of practice should be introduced.

The old doctor professes to be eminently skillful in curing gonorrhœa, gleet, strictures, syphilis in all its stages, primary, secondary, tertiary, or hereditary seminal weakness, nocturnal emissions, general debility, impotency, and all diseases of the urinary organs. The doctor solicits a call from all who may be afflicted with any such disease, feeling confident of success, and at a great saving of time and money to his patients.

The doctor can be consulted by letter, if the disease is accurately described, medicines will be immediately forwarded, carefully concealed.

Please remember the name and No., as Dr. Dix has nothing to do with any other office but 21 Endicott st.

P. S. The best accommodations will be furnished the sick of both sexes, with kind and attentive nurses, and at a reasonable rate.

All letters requiring advice must contain one dollar, or no notice will be taken of them. Address D. L. Dix, 21 Endicott st. Boston. jy11y d

LOTTERIES.—The well known Maryland Consolidated Lotteries of which R. FRANCE & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the manager call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1,00 to $20.—No tickets however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to 1000,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over. Address
